Re: Request for Proposals  
Kolb Park  
City of Paducah  
300 S. 5<sup>th</sup> Street  
Paducah, KY 42003

**Addendum No. 1**

This document is an amendment to the original Request for Proposals and shall be a part of and included in the final contract award. Wherein this Addendum conflicts with the original Request for Proposals, this Addendum shall govern.

RFP – Playground Replacement Kolb Park

1. Is the city tearing out the existing unit and mulch? If so, how will the site be prepared upon our arrival?
  - a) Yes. The City has the capacity to provide demolition of the existing structure and surfacing.
2. Will the city be providing dumpsters or a dump trailer for trash? Or is that to be included in the bid?
  - a) No. Please include any trash needs in the bid.
3. I saw a request for alternate safety surfacing. For the base bid are you asking for wood mulch?
  - a) The request for the alternate is for the safety surfacing portion of the project. The existing playground has wood mulch. Safety surfacing is preferred and could include rubber mulch or pour-in-place.
4. Could you clarify delivery and installation of the subbase as required? What type of subbase are you requesting?
  - a) At the discretion of the bidder and should be included as part of the alternate bid.
5. If this is prevailing wage, will you be providing the local prevailing wage sheets?
  - a) Yes. These will be available on the website for download. Disclaimer: Prevailing wage rates can be subject to change and will reviewed again when the contract is awarded.

**End of Addendum No. 1**
